

# NANOS Advocacy Committee

Our Goals: To increase awareness among the public, health care professionals and public & private decision-makers of improvements in outcomes, increased quality and cost-efficiency of neuro- ophthalmic care; and to continually monitor emerging social and legislative changes impacting neuro-ophthalmologists including compensation models from CMS, national standards regarding issues such as certification/scope-of-care, and to represent and promote the best interests of the NANOS membership.

## What does the **ADVOCACY** Committee do?

- **Address legislative and/or national policy changes impacting NANOS and its members.**
- **Align with the Board to develop official NANOS policy on legislative and issues.**
- **Enhance strategy for promoting the viewpoint and professional interests of NANOS.**
- **Collaborate with national medical organizations to align with our goals.**
- **Encourage and equip the membership to become involved in Advocacy.**
